# 01 Automation

# Kinetic Canopy

Flown from an overhead truss, a grid of motorized fixtures allows for a moving and shifting field of LED spheres. The spheres can independently move up and down, and are internally lit with programmable LED fixtures. The series of up to 100 spheres produce varying dimensional abstract forms.

The grid of motorized points can be arranged in numerous ways to work with different stage, exhibit and entryway layouts. The motors can function using custom designed pieces as well

## REQUIREMENTS

*Shipping, set up/strike, programming and run of show.*

## Three-Ring Turntable

The Turntable can be used to create immediate and dramatic stage transformations. It consists of three separate components: a 15' center circle and a 30' and 36' ring. Each ring can be controlled independently or in unison. Automation provides exact speed, direction as well as start/stop points. An available 40' square deck allows for seamless integration into other staging layouts.

**SIZE: 15', 30', & 36' DIAMETER X 2'H**

### REQUIREMENTS

*Shipping, set up/strike, programming and run of show.*

# Waterwall

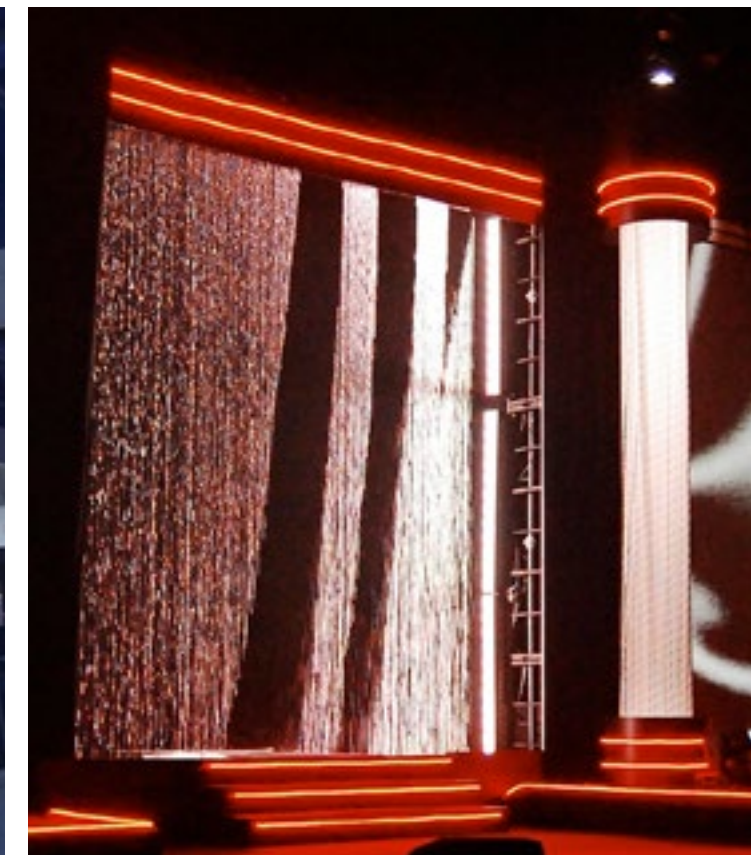

A truss structure is used to support this freestanding kinetic wall of water. Logos and simple images are displayed as positive or negative areas in a continuous sheet of falling water. The Waterwall comes in 4' lengths and can be set up in those increments to a maximum width of 36'. An available mesh bridge allows for dramatic walk-through reveals.

**SIZE: FIXTURE 24'W X 24'H, BASIN 24' X 3'H X 3'D**

## REQUIREMENTS

*Shipping, set up/strike, rigging, water/drain source, lighting, programming and run of show.*

# 02 Scenic Backdrops

## Solution Set

The Solution Set is a modular scenic system constructed from aluminum frames and hard surface panels. They can be arranged to create a multitude of layouts. Panels can be customized with prints and by using different substrates.

### QUANTITIES

**FULL PANELS (93) 32"W X 32"H**

**HALF PANELS (83) 16"W X 32"H**

**QUARTER PANELS (16) 16"W X 16"H**

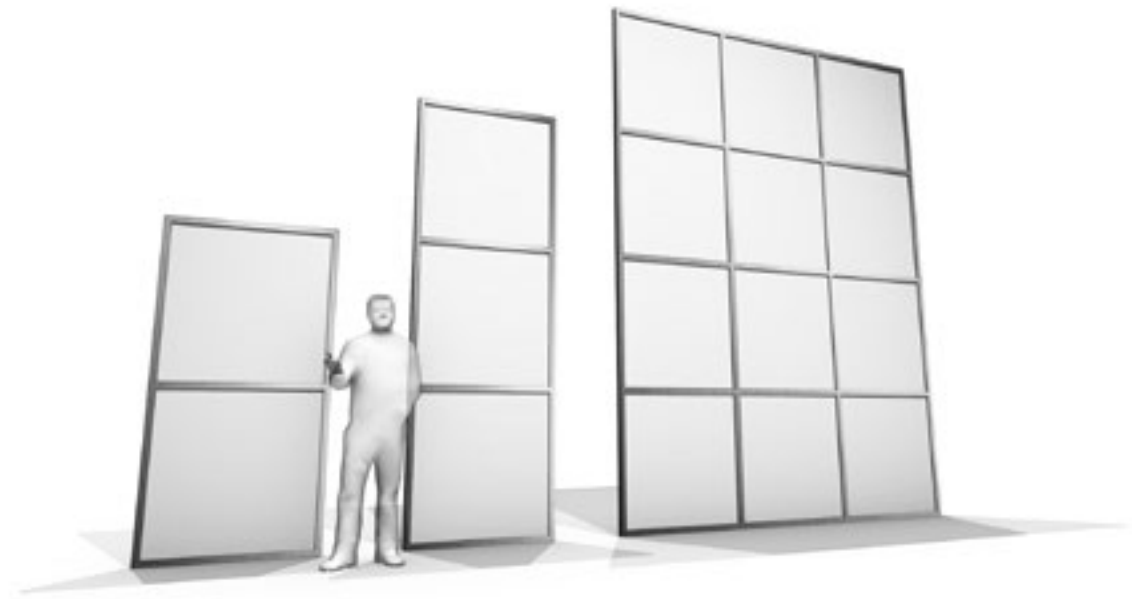

### REQUIREMENTS

*Shipping, set up/strike and lighting. Printing is optional.*

## Large Grid Panels

Our Large Grid Panels are another of our modular display systems. Constructed from steel frames and hard surface panels, the units can be configured into a variety of design solutions. Customization can also be achieved with printed panels.

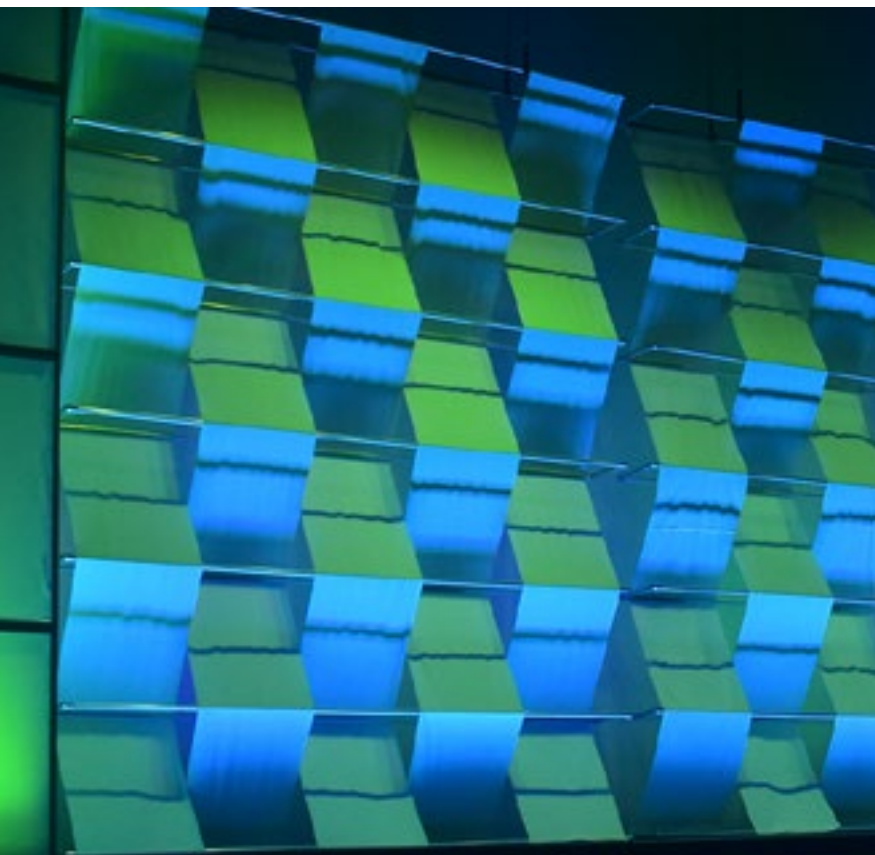

**QTY/SIZE: (20) 4'W X 8'H, (8) 4'W X 12'H**

### REQUIREMENTS

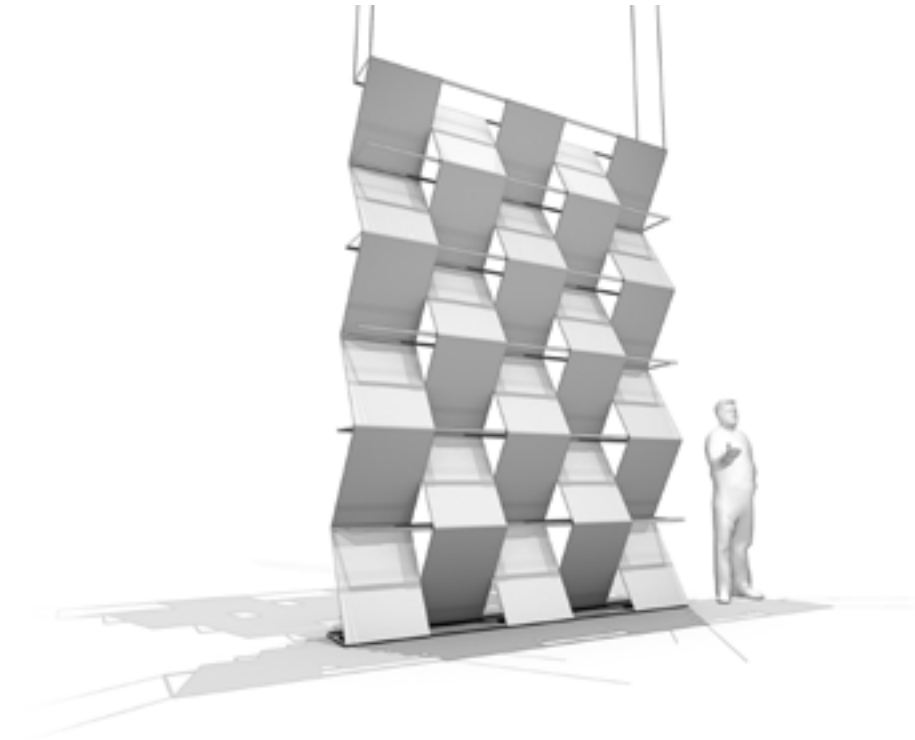

*Shipping, set up/strike, rigging and lighting. Custom routing and printing is optional.*

## Accordion Wall

Conceived to create a big visual splash with a modest set up time, the angled cloth panels of the wall allow for an array of lighting looks. Constructed in 10' wide sections, it can be designed in any width from 10' to 50' long.

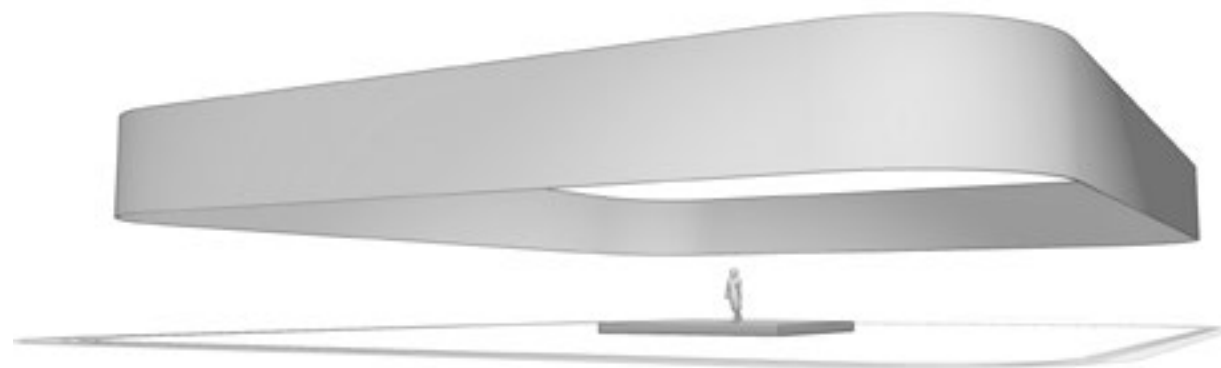

**QTY/SIZE: (5) 10'W X 14'H X 1'4"D**

### REQUIREMENTS

# 04 Photo/Video Booths

# Kaleidoscope Photo Booth

A distinctive photo op can serve as one of the primary activities for your conference. Guests are invited into a standing photo booth lined with a series of precisely placed mirrors. Reflections multiply, creating angled shapes that form a completed kaleidoscope image.

Friends can take photos throughout the event, with daily changeout of themed props. Attendees can share their photos by using the touchscreen located outside the booth. Images can also be collected and projected on screens in the General Session space.

**REQUIREMENTS**

*Shipping, set up/strike, rigging, programming and run of show.*

## Click-360 Video Booth

Our innovative photography booth records all angles of a subject simultaneously and renders them as a looping video clip. Enclosed by a curtain wall and branded printing, a subject steps into the center of the booth and poses. In an instant, the cameras simultaneously 'click' a photo of every angle of the subject. Studio software then immediately compiles the photos into movie form—showcasing your subject in 360-degrees.

# 08 Smart Staging Solutions

## Quarter Round Set

### SET FEATURES

This set is a configuration of six of our Quarter Round tension fabric panels, placed on stage in an over-lapping layered arrangement. This design features a 4'W x 8'H printed event logo panel. Placed behind the presenter podium allows the printed convention logo to feature prominently as the background for the IMAG shot. Up-lighting will wash the white Quarter Round set panels, transforming the color palette on stage from session to session.

## Square Portal Set

### SET FEATURES

The center feature element is our glossy white laminate Square Portal framing a 8'W by 8'H logo. The printed logo positioned behind the presenter podium allows the logo to feature prominently in the IMAG camera shot. Our Large Grid Panels are positioned to each side of the Square Portal. Printed graphics inspired by the event identity can be applied to this grid. Colored lighting will wash the panels, transforming the color palette on stage from session to session.

## Light Tower Set

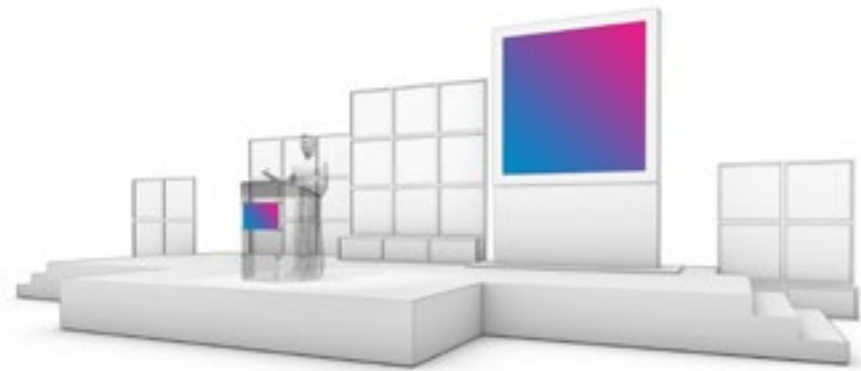

### SET FEATURES

A series of stacked curved light box units create this striking set. Each square translucent panel can have graphics applied to create a customized look. LED lighting inside each segment provides internal illumination that can change the color and mood during sessions. We recommend featuring the event logo as the printed graphics for the center tower, resulting in a branded backdrop for IMAG.

## Staggered Square Set

### SET FEATURES

This set uses a series of our modular Solution Set columns to create an engaging asymmetrical stage design. These columns contain LED lighting that can change the look and feel during sessions. Our Square Monolith is used to balance the composition while providing a large graphic area (6'4"W x 6'4"H) for event branding.

## Thought Bubble Set

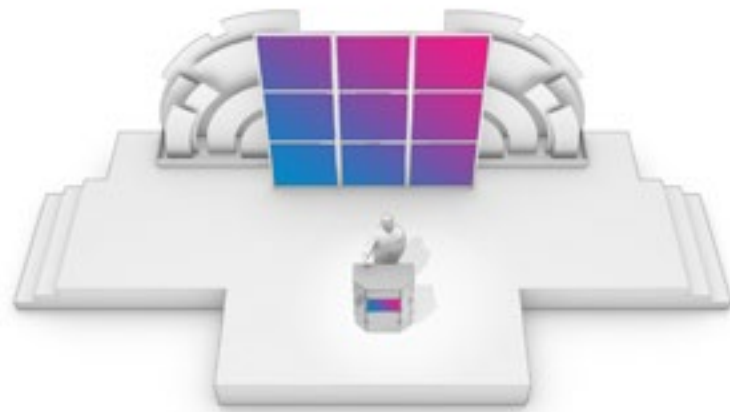

### SET FEATURES

This set consists of four of our Thought Bubble forms arranged in an overlapping, captivating composition. The forms are covered in a gloss white laminate and range in size from 9'8"W x 9'8"H up to 14'W x 14'H. The bubble form positioned far to stage left is designed to hold a custom printed branded graphic or LED source.

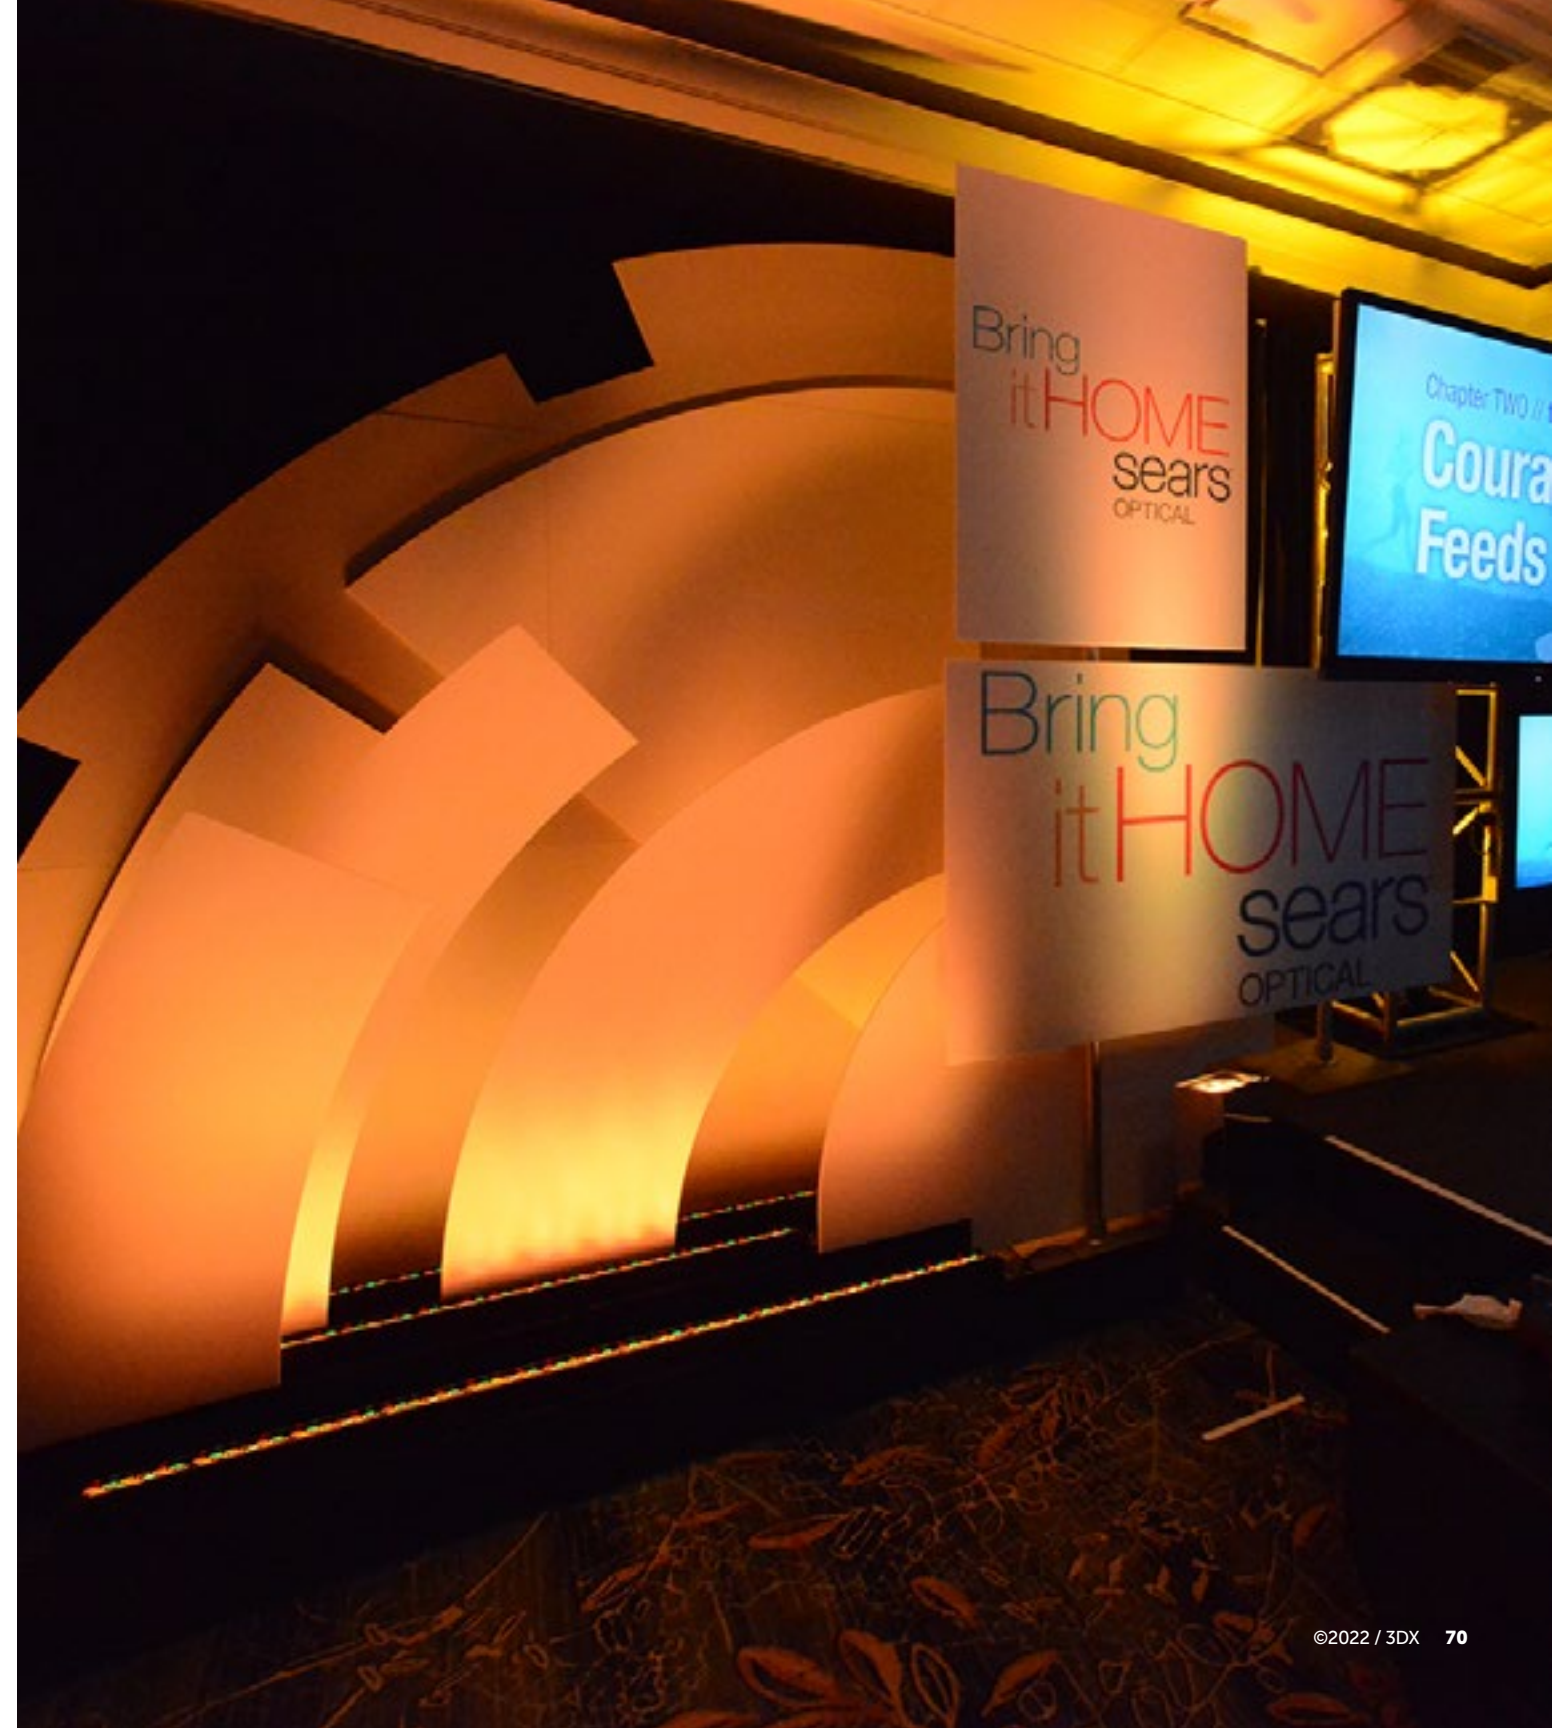

## Wheel Panel Set

### SET FEATURES

Using three of our Large Grid Panels, we have created a centrally branded graphic measuring 12' W x 12' H. It is flanked on either side by our dimensional Wheel Panels measuring 9'W x 9'8" H x 2'8" D. The Wheel Panels incorporate overlapping circular elements that were designed to take light in a dynamic manner, allowing for impactful color changes from session to session.
